Winter is coming! Is your car ready?

Although we are experiencing very mild temperatures now, soon the snow will be flying and the roads will be covered in slush, snow, and ice. It’s a good idea to winterize your vehicle now to prepare for what’s coming in December, January, and February.

First, check your tires and brakes to make sure they are in good condition. If you commute a long distance to campus, I advise buying a quality set of snow tires. All-season radials aren’t really meant for winter use in this part of the country. Furthermore, if your car is shod with performance tires, these have very poor grip in the winter and will get you nowhere fast on icy or snow-covered roads.

All-or four-wheel drive will help you navigate through the snow but is not a necessity unless you are commuting from Preston or Garrett counties. I live in a mountainous area outside of town. During the winter, I drive a Mitsubishi Eclipse with four Bridgestone Blizzak snow tires and never have a problem getting to and from campus.

There are many retailers, both locally and on-line, that offer winter tires. If you’re a dedicated on-line shopper, try these sites:

- [www.tirerack.com](http://www.tirerack.com)
- [www.discounttire.com](http://www.discounttire.com)
- [www.amazon.com](http://www.amazon.com)

Locally, the following retailers offer snow tires on a seasonal basis:

- [Sears](Morgantown Mall—304-983-6395)
- [Discount Wholesale Tire](Westover—304-291-5255)
- [Eddie’s Tire](Greenbag Road—304-292-3052)
- [Goodyear](Greenbag Road—304-296-1748)
- [More Tires](Mileground—304-292-5955)
- [Tireland](Mileground—304-296-3344)

Beyond tires and brakes, also be sure to have your battery and coolant checked before those harsh winter temperatures hit our general area. And don’t forget to put a good coat of wax on your vehicle before winter to protect your paint finish!

Take care driving,
Brian

Community Service Events

So far this semester, we have had two community service events: repainting a room at Bartlett House, a local homeless shelter in Morgantown, as well as the early October blood drive sponsored by the American Red Cross and WVU Commuter Student Programs.

For November and December, we will team with Animal Friends of North Central West Virginia, a local no-kill animal shelter located south of Morgantown. The website is located at www.animal-friends.org and contains listings of homeless, abused, and neglected pets in need of good homes. In December, we will likely work with the Marine Corps Reserve Toys for Tots program. See the website for more: www.toysfortots.org.
